

Fulfilment for you and your customers

Direct Link creates dedicated solutions for e-commerce – fulfilment, supply chain, warehousing and offers a wide range of logistics services. Our goal is to make you successful by making your e-commerce shoppers happy with the delivery of their purchase from you. We offer pick, pack and deliveries from our fulfilment centers in Poland and Hong Kong.

Our focus is on personalizing services and shipments as well as providing excellent customer experience for your B2B and B2C clients. Our aim is to become your business partner, not only a supplier. Explain your needs, requirement and tell us more about your specific business environment and we will find the best way for you.

If you're ready to expand your e-commerce business beyond your national borders, you'll need a good partner to give you a helping hand. We are cross-border specialists and deliver shipments all over the world.

As a part of PostNord, the leading supplier of communication and logistics solutions in the Nordics, Direct Link combines entrepreneurial flexibility with corporate stability.

We'll give you 100 percent of our attention

Our pick, pack and delivery solutions will always be based on the specific needs of your company. Our commitment to the whole process of package preparation and our attention to detail together with our focus on consumer driven deliveries will turn your customers into the biggest fans of your brand.

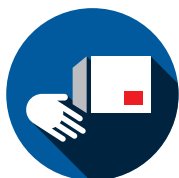

Warehousing

This is where we begin optimizing your supply chain. We offer customized and consumer-driven services in warehousing, packaging, deliveries and returns.

Packaging

We generate picking lists from our integrated system, pick products and pack in the way we have agreed. We make quality checks, both inbound and outbound, to minimize claims and returns. Our solutions are based on your specific needs, aiming to give your customer an excellent experience at the unpacking moment.

Deliveries

We help you find the best delivery option for you and the most convenient for your customer. Borders are no obstacles – we deliver all over the world.
